Tools: Java MySQL [🎧]

◦ Developed a robust and efficient Hotel Management System to streamline hotel operations, including room bookings, check-ins, and check-outs.

◦ Implemented Java and MySQL, processing for creating a robust back-end, dynamic front-end, and efficient database management, achieving seamless integration and real-time data processing.

◦ Created dynamic management features, such as automated reservation handling, customer information management, and billing processes, to improve overall service delivery.

SKILLS

• **Programming Languages:** Java, Spring Boot, HTML, CSS, Javascript, MySQL, Angular.

• **Database Systems:** MySQL

• **Other Tools & Technologies:** Visual Studio Code, Eclipse, NetBeans, Git/GitHub

• **Soft Skills:** Public speaker, Logical thinker, Active listener, Team worker

CERTIFICATIONS

• **Ducat:** Project Certificate	*Jul 2019*
• **Ducat:** Advance Java	*Jul 2019*
• **Ducat:** Expert Java	*Jun 2020*
• **Ducat:** Spring Boot	*Aug 2020*
• **Hacker Rank:** Problem Solving	*May 2024*
• **Great Learning:** Advance SQL	*Jan 2024*
• **Great Learning:** CSS	*Jun 2024*
• **Hacker Rank:** Java(Basic)	*Aug 2024*

ACHIEVEMENTS AND ACTIVITIES

• **Hacker Rank:** Completed 100+ Java problems on Hacker Rank. View

• **LeetCode:** Completed 80+ problems on LeetCode. View

• **Code Chef:** Completed 100+ problems on Code Chef. View

• **Stop Stalk:** Solved coding questions across various coding platforms. View
